INSTRUCTIONS TO OUR PATRONS

HOW TO ORDER FROM THIS CATALOGUE

It will facilitate matters in our Order Department if the fullest instructions are given in ordering any piece shown here. We would like not only the piece number and the letter D, but also the page number on which the article is illustrated.

Where any number of articles are shown in one picture, they are numbered from left to right.

Address all orders to:
The Craftsman Department of Interior Furnishings,
Craftsman Building, 6 East 39th Street, New York.

CRAFTSMAN WILLOW WORK

THE Craftsman Department of Interior Furnishings shows in this catalogue what it has accomplished since the opening of the new Craftsman Building.

The furniture, fabrics, pottery, lamps, baskets, china, silverware and glass illustrated have been assembled by us, and from our point of view, represent some of the finest specimens of interior furniture and fittings manufactured in this country. Many of these examples of fine craftsmanship are from our own workshops; others are designed and produced by various distinguished makers.

We especially wish to call your attention to the convincing artistic merit of these articles which are all "made in America." We feel very proud that our country holds a place second to none in the beauty as well as comfort of its home furnishings and decorations.

Your order will command our most careful attention, and when it is not possible to give immediate delivery you will receive word at once when you may expect shipment. Of course, where certain stocks have been oversold, our patrons will realize that orders must be filled in their turn.

We hope not only that this little booklet will prove of interest, but that through it we may be of real service to you.

No. 37 D. Gumwood Cabinet
(below), 55 in. high, 27 in. wide,
17 in. deep\$32.00

In Mahogany\$38.00

Both this Gumwood—or Mahogany—Cabinet and the Chiffonier are finished by the same method as is used with our brown fumed oak, with the result that all the color of the wood is revealed and the surface is left a velvet texture: To those who are interested in this finish we will be glad to send on application a small sample of these woods.

No. 38 D. Gumwood or Oak Chiffonier,
48 in. high, 32 in. wide, 20 in. deep..\$30.00

In Mahogany\$36.00

The various hues of the gumwood are so well brought out by our method of finishing the wood that it combines interestingly with many different color schemes: In addition to the delicate wood brown there is a suggestion of violet, pale green and blue in the surface so that gumwood furniture is most satisfactory in bedrooms and boudoirs where a finely harmonious color scheme is necessary: The furniture itself is made on fine lines so that both color and construction render it appropriate for elegant furnishing.
